**NAME:** RUNE JAKOB JACOBSEN

**DATE OF BIRTH:** 17.07.1952

**NATIONALITY:** Norwegian

**LANGUAGES:** Norwegian, English

**MARITAL STATUS:** Single

**PROFESSION:** Mechanical Engineer, Welding Engineer, QA/QC Engineer,

**SUMMARY OF EXPERIENCE**

- \* 4 Year Site manager, construction site, Narvik
- \* 3 Year QA/QC Lead/ Eng. international Offshore Projects
- \* 3 Year General Manager, Aker Kværner, Mosjøen
- \* Project Manager
- \* 4 Year Discipline \ Marketing Manager (NDT)
- \* 10 Years International Project, Saudi Arabia, Russia, Korea, Iran, Kazakhstan
- \* 4 Year Contract Administrator
- \* 1 Year Marketing and Sales of Welding Equipment
- \* 12 Year Offshore Related Construction Works.

**SUMMARY OF POSITIONS:**

- \* Site manager, Narvik terminal, Northland- Power line, Statnett
- \* QA/QC Lead Offshore, Aker Solutions, Kazakhstan
- \* QA/QC Lead Offshore, Statoil Hydro, Iran
- \* Field Engineer/Site Manager, AKMH, Korea
- \* Contract Coordinator, Staffjord Late Life
- \* Senior QC Engineer, Sakhalin II Project, Russia
- \* General Manager. Aker Kværner Industrial Maintenance
- \* Project Manager, Aker Inspection and Consulting AS
- \* Discipline\marketing Manager (NDT) BPC Engineering AS
- \* Senior Supervisor, Aker Engineering, K.S.A
- \* Department Manager QC, BPC Engineering a.s
- \* Contractor's site representative, CONOCO
- \* District Manager, Filarc Norge a.s
- \* Welding Engineer, Nord Offshore a.s

---

- \* Fabrication Engineer, Nord Offshore a.s
- Responsibility for sandblasting and painting, Nord Offshore a.s.
- \* Responsibility for work preparation in the work shop, Nord Offshore a.s (Offshore construct. Yard)
- \* Main Planer. Nord Offshore a.s

## EDUCATION:

- \* BSc. NKI College of Engineering, Mechanical Engineering.
- \* Welding and materialtechnical. Education for Engineers. ( Welding Engineer )
- \* Post graduate studies in marketing, EDP and economic

## COURSES:

- \* Managing development (Nordnorsk Lederutvikling)
- \* Basic Safety and Emergency Preparedness Training (OLF)
- \* Microsoft Word and Excel
- \* Foundation training labour management.
- \* Fracture mechanics evaluation of weld defects in structural steel fabrication.
- \* Practical training management.
- \* Steel construction - safety offshore.
- \* Practical training management.
- \* Problem solving & decision-making.
- \* Use of dimensional control instruments in the construction industry.
- \* Paint and corrosion protection.
- \* Team work and corporation training.
- \* Correct use of NDT by quality control

## AUTHORISATION:

- \* Authorisation for Supervisors in Industrial Radiography. Norwegian Radiation Protection Authority (NRPA)
- \* Authorisation for Weld Inspection. NS -477

## EXPERIENCE:

- 01.02.14 – 01.10.2016**      **Statnett SF**  
**Site manager**  
**420 kV power line from Ofoten Ballsfjord**
- 01.01.12 – 01.02.14**      **Northland Resources Ltd**  
**Site Manager, development of Narvik Terminal**  
**Reporting to Project Manager, Norway**
- 01.10.11 – 30.12.11**      **Mosjøen og Omegn næringssselskap KF**  
**Development of the river Skjervo for public recreation**
- 01.03.09 – 07.08.10**      **Aker Solutions, Kazakhstan Branch, Oil & Gas field**  
**QA/QC Lead Offshore, Caspian Sea, Kazakhstan**  
**Reporting to QA/QC Manager Onshore**  
Installation of gas racks and modules D Island
- 01.03.08- 01.03.09**      **StatoilHydro, SOUTH PARS GAS FIELD DEVELOPMENT**  
**QA/QC Lead Offshore, Persian Gulf, Iran**  
**Reporting to QA/QC manager Onshore**  
Installation of gas platform SPD 8 and SPD 9
- 12.02.07- 01.03.08**      **Aker Kvaerner Maritime Hydraulic (AKMH)**  
**Field Engineer/Site Manager, Korea**  
Follow up, steel construction work at Hochang Ind, Ulsan  
Commissioning of drilling equipment SeaDrill 10 and 11.  
Semi submersible drilling rig designed for ultra  
deepwater operations
- 07.08.06 – 12.02.07**      **Aker Kvaerner Maritime Hydraulic**  
**QA/MC Engineer**  
Quality Assurance and Mechanical Completion of hydraulic  
Drilling Equipment.

---

**01.10.05 – 31.06.06**

**Staffjord Late Life Project (SFL)**

Coordination of Contract with Semco Maritime  
Fire Water Modification. Engineering, Prefabrication and  
Installation offshore.  
Coordination of engineering, Aker Kvaerner Aberdeen  
Gas Export Module (SFL)

**19.07.04 – 01.04.05**

**Sakhalin II CGBS Project, Russia**

Senior QC Engineer, Mechanical outfitting of platform concrete  
Structure.

**01.01.03 – 20.05.04**

**Aker Kvaerner Industrial Maintenance**

**General Manager, Mosjøen**

**01.10.00 – 01.01.03**

**Kvaerner Oil & Gas  
Modification, Maintenance, & Operations**

**General Manager, Mosjøen**

- Responsible for the overall result of the activity at site in Mosjøen, Norway, with 120 employees. Main activity are modification and maintenance for Elkem Aluminium Mosjøen

**1999 – 2000**

**Aker Inspection and Consulting (AIC)**

**Project Manager**

- \* Responsible initiating and development of projects
- \* Maintaining of frame agreement, purchasing of equipment and hiring of personnel
- \* Establish project procedures and plans
- \* Marketing of special inspection services

**Main Projects:**

Developing of Portable industrial computer tomography  
Establish inspection handbooks, platforms and rigs

High energy x-ray  
Eddy current technique for measurement of oxidation in big  
furnace. Trade name: SensoSound OM 101

**1995 - 1999**

## **BPC ENGINEERING AS, BERGEN**

### **Discipline\marketing Manager**

- \* Responsible for the skill development including technical procedures
- \* Maintaining of frame agreement, purchasing of equipment and hiring of personnel
- \* Establish project procedures and plans
- \* Marketing of inspection services

**1993 - 1995**

## **AKER ENGINEERING, KINGDOM of SAUDI ARABIA (K.S.A)**

### **Senior Supervisor**

Reporting to the Installation Manager.

Overall responsibility for prefab area and mobilisation activities for prefab section.

- \* Planning, organising and supervision of prefab section.
- \* Layout of workshop and prefab area.
- \* Preparing of procedures.
- \* Preparing of training manuals.

### **Project:**

Saudi Strategic And Storage Plant (SSSP)  
Site 5, Jeddah K.S.A.

**1989 - 1993**

## **BPC ENGINEERING AS, BERGEN**

### **Department Manager, Quality Control (QC)**

Reporting to the managing director

Professional responsible of activities within:

- 
- \* Control/testing (NDT) Procedures
  - \* Welding Technology/Procedures
  - \* Visual inspection/corrosion consultants
  - \* Establish project procedures and plans

**Main projects:**

- \* NDT-inspection Oseberg A.B and C Norsk Hydro
- \* Corrosion inspection of process pipe  
Mongstad Statoil
- \* Conoco's site representative  
Project: Hydrocyclones for Statoil  
Site: Midsund Bruk, Midsund

**1988 - 1989**

**FILARC NORGE A/S**

**District Manager, Bergen.**

Reporting to managing director Filarc Norway  
Responsibility for marketing and sales of weld consumables and  
weld equipment

**1976 - 1988**

**NORD OFFSHORE AS. SANDNESSJØEN**

**1986 - 1988**

**Welding Engineer.**

Reporting to the production manager.  
Overall responsibility of all welding related activities executed on  
behalf of Nord-offshore a.s., which included:

Preparation of procedures.  
Qualification and supervision of welders and welding equipment.  
Liaison with clients site team.

**Main projects:**

Fabrication of the SPM-bases for the loading buoys - Gullfaks "A"  
and "B".  
Fabrication of parts of Module Support frame - Gullfaks "C".  
Fabrication of the Emergency Generation Module M-21  
(EPC-contract) - Gullfaks "C".  
Fabrication of template Oseberg II.

**1976 - 1988**

## **NORD OFFSHORE AS. SANDNESSJØEN**

**1981 - 1986**

### **Fabrication Engineer.**

Reporting to the production manager.

Additionally, various projects for the ships and offshore industry.

Responsible for the fulfilment of projects assigned to him in accordance with specifications and quality, within agreed cost- and delivery terms.

Overall responsibility for all sandblasting and painting related activities executed on behalf of Nord Offshore a.s. which included: Instructions of operators, preparation of procedures, preparation of plans, surveying of work and quality, preparation of QC documents.

### **Main projects:**

Emergency Generation Module M-21 (EPC- contract) - GF "A".

Flare boom M26/27 - GF "A".

SPM-base for the loading buoy - GF "A".

Beam fabrication for water flood system - Phillips.

**1978 - 1981**

### **Work preparation.**

Reporting to the project manager.

Work preparation which includes:

Arranging of fabrication areas, handling of shopdrawings and related documents, material control.

### **Fabrication of the following**

#### **Main project:**

2 off Ro/Ro carriers - Armadora Naval Dominicana.

2 off module decks - Vigor

**1976 - 1977**

### **Main Planner.**

Reporting to the planning manager.

Preparation of production plans and progress reporting.

#### **Main project:**

Fabrication of the Lateral Base Float- Statfjord "A".
